

FISSAL

Fondo Intangible Solidario de Salud

FISSAL was created by **Law 27656 (15.01.02)** to **"promote access to quality health services for the population excluded from it"** it is a supplementary funding for the Integral Health Insurance for those benefits that it can not fully fund, and that is not served by any other branch office.

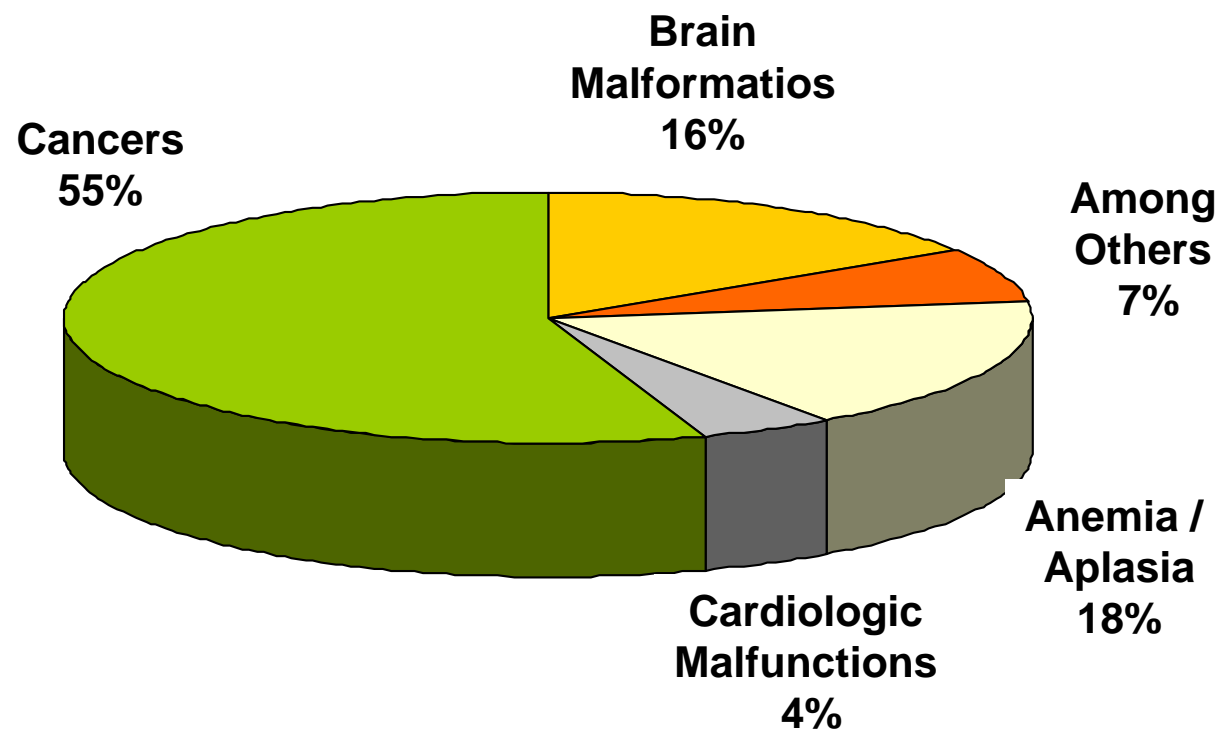

Advances in Financing Cases

Up to date, 1.2 million soles have been allocated in more than 30 patients with high cost illnesses, from various regions of the country.

Currently, there are more than 80 cases in waiting list, which in total need more than five million soles.

Funding Sources

- **Public Resources**
- **International Cooperation**
- **Private Sources**
- **Others**

Public Resources

In 2009, FISSAL succeeded in incorporating to Law 2934, ***Universal Insurance Law*** as well as the Regulation of said law, which is about to be approved. Thus, FISSAL officially obtained a defined role in politics and in the public health system. Additionally, FISSAL continues making arrangements with the Ministry of Health (MINSA) and the Ministry of Economy and Finances (MEF) for allocation of resources.

International Cooperation

With the support of International Cooperation, Peruvian-Belgian Studies Fund, we currently manage financing of 2 studies:

"Claims, Incidence and Prevalence of Catastrophic high cost Illnesses in Peru and their Financial Projection" and

"Structure and Financing of the Fund for Catastrophic Illnesses and High Cost in Peru".

International Cooperation

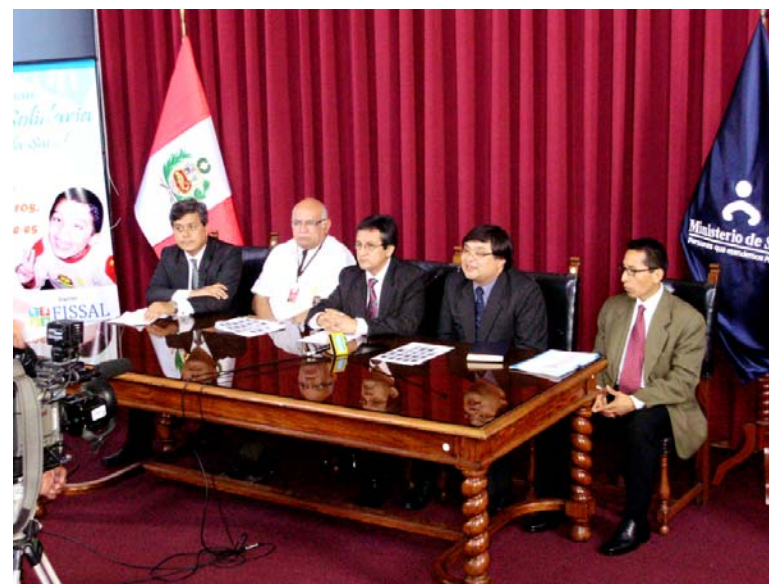

Deployment of a network of **HONORARY DELEGATES** has begun in the cities of: ***Rome, Los Angeles, Atlanta and Tokio***, in order to undertake activities to disseminate information about FISSAL's work, looking for various funds and grants.

***FEDAP - España
Funds to FISSAL***

Private Sources

We permanently make campaigns and public activities to collect funds from civil society and private companies.
